

RÖS'S ESTETICA, S.L.,

It is a manufacturer of technology for professionals in beauty, aesthetic medicine and physiotherapy.

Technological innovation and the vocation to help are our motivation when it comes to assist specialists from all over the world in their professional development.

We boost sales growth by introducing our own brand products with a higher technological level, together with collaborative projects to develop customized equipment for the client.

We take care equipment is safe and effective, for this reason we focus the management of continuous improvement on hazard prevention.

We comply with applicable legislation and regulations, with active surveillance of potential dangerous factors in all phases of the product's life cycle, with special attention to after sales.

Although the economic management objectives mark the general strategy of the company, Management assumes the commitment to integrate the management of the Quality, Environment and Work Safety systems, introducing improvements in each functional area (economic, customer, processes and resources) through taking care of customer satisfaction, and the continuous optimization of both the product and the processes.

A framework of relationships with suppliers is established from a clear policy of transparency and collaboration, reflected in written agreements and oriented to Total Quality.

The involvement of the departments, the training and motivation of the staff are reflected in the professional attitude of our staff, offering a high level of collaboration to our clients. Our human team is multidisciplinary and works to offer our clients free business support services: amortization of the purchase of technology, training in the use of technology, communication and marketing tools.

We incorporate a commitment to social responsibility through the principles of sustainable innovation, promotion of local economic development, commitment to comply with current legislation, support for female entrepreneurs and commitment to ongoing training.

D. Carles Moliner Verdú

General Manager RÖS'S
